

Prof. dr. sc. MARKO PALEKČIĆ

PEDAGOGICAL RESEARCH PERSPECTIVE

The relationship between pedagogical theory and
pedagogical empirical research

Content

Introduction..... 7

I. Meta-theoretical analyses, critiques and reconstructions

*Introduction to Part one: “Empirical turn” in pedagogy
or About recursion of methodological approach* 15

1. Roth, H. Realistic turn in pedagogical research 21
2. Interaction between student characteristics and
instructional methods (ATI)..... 35
3. A differential approach to pedagogical research: scope
and limitations (a meta-theoretical critical analysis) .. 50
4. Distinctiveness of pedagogical research 70
5. Theoretical and Methodological (Lack of) Foundation of
didactics research..... 85
6. Theoretical and methodological questions of pedagogy:
contemporary challenges and perspectives 95
7. “Empirical turns” since Roth’s article (1962) 112
8. Backward view: or Pyrrhic victory of method over
subject 184

II. Towards the original pedagogical research perspective

(Pedagogical research is a research of “pedagogical”)

Introduction to Part two: Beyond the mere reflection and social technology or The relationship between theoretical determination of the research subject and empirically generated knowledge about the research subject 227

1. Empirical research of pedagogical “practices” and “pedagogical” 244
2. Empirical research outside the pedagogical institutions 253
3. Empirical research conducted by pedagogical theory 264
4. Pollmanns, M. How to reconstruct the educational reality of teaching as pedagogical? Comparison of two attempts to comply with this request 277
5. Benner, D. Is there a pedagogically based and didactically applicable empirical educational research? About the meaning of the concept of educational teaching for broadening the educational experiences and social participation 295
6. Intrinsic motivation in school learning — an example of pedagogical and interdisciplinary research 329
7. View ahead or The future of pedagogical research perspective 343
